

APPENDICES

Appendix 1 The Aisle of Wedding Ceremony

Appendix 2 The Informant (Pranata Adicara)

Appendix 3 Results of interviews with informant.

Interviewer: Bagaimana proses dan persiapan Upacara Pernikahan Jawa khususnya pada upacara Panggihing Temanten Mecah Tigan/ Wiji Dadi? (*How is the process and preparation for the Javanese Wedding Ceremony, especially for the Panggihing Temanten Mecah Tigan/ Wiji Dadi ceremony?*)

Informant: Yang pertama dilakukan adalah mempersiapkan peralatan untuk upacara adat nya. Dan yang perlu di siapkan itu ada, Bokor Kencana yang didalamnya diisi air jernih kemudian diisi pula dengan bunga yang jumlahnya ada 3 macam yaitu bunga mawar, bunga melati dan bunga kantil. Selain itu dalam Bokor Kencana juga ada gayung dan juga harus disiapkan telur atau orang jawa menyebutnya “*Tembayan*” atau telur pertama kali ayam bertelur. (*The first thing to do is prepare the equipment for the traditional ceremony. And what you need to prepare is Bokor Kencana, which is filled with clear water and then filled with flowers, of which there are 3 types, namely roses, jasmine flowers and kantil flowers. Apart from that, in Bokor Kencana there is also a dipper and eggs must also be prepared or the Javanese call it "Tembayan" or the first egg a chicken lays.*)

Interviewer: Lalu, apa makna dari setiap peralatan tersebut? (*So, what is the meaning of each piece of equipment?*)

Informant: Makna dalam peralatan yang digunakan dalam upacara Mecah Tigan/ Wiji Dadi yang pertama ada Bokor Kencana atau sebuah nampan. Bokor sendiri

merupakan lambang dunia/ alam semesta, sedangkan kencana adalah emas yang merupakan salah satu unsur dunia yang bernilai tinggi. Bokor kencana ini akan diisi dengan air jernih dan “*sekar tri warna*” atau 3 macam bunga yang terdiri dari bunga mawar, bunga kantil, dan bunga melati. Makna dari air bunga itu menurut orang jawa ketika kedua pengantin mengarungi bahtera rumah tangga diharapkan menjadi “*seseukan*” atau “*ngarumke asmane kluwarga*” dalam kata lain yaitu dapat mengharumkan nama keluarga. Dan yang terakhir yaitu telur ayam kampung. Telur ayam kampung merupakan lambang kehidupan. Dimana setelah telur dipijak oleh pengantin pria dan pecah, maka telur ayam yang memiliki dua warna putih dan kuning akan menyatu. Dalam pandangan orang jawa kuning telur dan putih telur yang sudah menyatu melambangkan bersatunya suami istri dan menghasilkan janin calon kehidupan baru (anak). (*The meaning of the equipment used in the Mecah Tigan/ Wiji Dadi ceremony, the first is Bokor Kencana or a tray. Bokor itself is a symbol of the world/universe, while Kencana is gold. Which is one of the world's elements, with high value. This Bokor Kencana will be filled with clear water and “sekar tri warna” or 3 kinds of flowers consisting of roses, kantil flowers and jasmine flowers.*) According to the Javanese, the meaning of flower water is that when the bride and groom sail the household ship, it is hoped that they will become “*seseukan*” or “*ngarumke asmane kluwarga*” in other words, that is, it will make the family name proud. And the last one is free-range chicken eggs. Free-range chicken eggs are a symbol of life. Where after the groom steps on the egg and breaks it, the chicken egg, which has two colors, white and yellow, will merge. In the Javanese view, the egg

yolk and egg white that have been fused symbolize the union of husband and wife and produce a fetus that is a candidate for new life (child).)

Interviewer: Bagaimana proses dalam upacara Mecah Tigan/ Wiji Dadi? (*How does the process in the Mecah Tigan/ Wiji Dadi ceremony?*)

Informant: Prosesnya yang pertama pengantin wanita memberikan “*sembah kalbu*” atau penghormatan kepada pengantin pria. Kemudian pengantin pria mendekat ke Bokor Kencana yang sudah terisi air bunga dan telur ayam. Selanjutnya pengantin pria menginjak telur hingga pecah dan setelah itu pengantin wanita membasuh kaki pengantin pria dengan menggunakan air bunga dalam Bokor Kencana. Dan terakhir pengantin pria membantu pengantin wanita untuk berdiri untuk menuju ke pelaminan.

(The first process is that the bride gives "sembah kalbu" or respect to the groom. Then the groom approaches the Bokor Kencana which is filled with flower water and chicken eggs. Next, the groom steps on the egg until it breaks and after that the bride washes the groom's feet using flower water in the Bokor Kencana. And finally the groom helps the bride to stand up to go down the aisle.)

Interviewer: Apa makna dari membasuh kaki tersebut? (*What is the meaning of washing the feet?*)

Informant: Membasuh kaki sebagai tanda bukti bahwa pengantin wanita selalu setia dan patuh kepada perintah suami. Dalam pandangan orang jawa membasuh kaki oleh pengantin wanita bukan berarti merendahkan derajat wanita. Orang jawa percaya

bahwa dengan membasuh kaki dapat membuang energi negatif yang ada di badan pengantin pria. Dimana ketika dalam perjalanan menuju ke “*Sasana Panggih*” atau lokasi pertemuan pengantin, ada energi buruk yang menempel sehingga harus dibasuh dan dibersihkan aura nya menggunakan air bersih dengan bunga tiga macam. (*Washing the feet is a sign of proof that the bride is always loyal and obedient to her husband's orders. In the Javanese view, washing the bride's feet does not mean lowering the status of the woman. Javanese people believe that washing the feet can get rid of the negative energy in the groom's body. Where on the way to the "Sasana Panggih" or location for the bride and groom's meeting, there is bad energy attached to it so it has to be washed and cleansed of the aura using clean water with three kinds of flowers.*)
