

ABSTRAK

Ghemma Ika A. Y, 2023. *Manajemen Paguyuban Wali Murid PAUD di Cendekia Kids School Madiun*. Skripsi, Program Studi Pendidikan Guru Pendidikan Anak Usia Dini, FKIP, Universitas PGRI Madiun. Pembimbing (I) Sofia Nur Afifah, M.Pd, (II) Dr. Alisa Alfina, M.Pd

Keterlibatan orang tua menjadi salah satu penentu dalam keberhasilan program sekolah di Pendidikan Anak Usia Dini (PAUD). Paguyuban Wali murid merupakan salah satu wadah untuk menjalin kerjasama antara orang tua dan sekolah di PAUD, untuk itu penting manajemen paguyuban wali murid. Penelitian ini bertujuan untuk mengetahui lebih dalam mengenai manajemen paguyuban wali murid PAUD. Penelitian menggunakan metode penelitian kualitatif survei. Peneliti menggunakan sumber data primer dan sekunder, sumber data primer yaitu kepala sekolah dan sumber data sekunder literatur dan dokumen mendukung penelitian. Penelitian ini dilakukan di Cendekia Kids School (CKS) Madiun. Hasil analisis manajemen paguyuban wali murid PAUD di CKS ditemui bahwa kekuatan lebih banyak ditemui dibandingkan dengan kelemahan, perencanaan paguyuban dan program menghasilkan program baru yaitu jumat berkah, adanya struktur pengurus paguyuban, pelaksanaan yang berjalan efektif dengan bantuan paguyuban. Tidak ada pengawasan yang ketat karena bersifat kerja sama dan evaluasi yang berjalan santai dengan diskusi ringan.

ABSTRACT

Ghemma Ika A. Y, 2023. Management of the PAUD Student Guardians Association at Cendekia Kids School Madiun. Thesis, Early Childhood Teacher Education Study Program, FKIP, PGRI Madiun University. Supervisor (I) Sofia Nur Afifah, M.Pd, (II) Dr. Alisa Alfina, M.Pd

Parental involvement is one of the determinants of the success of school programs in Early Childhood Education The Guardians' Association is a forum for establishing cooperation between parents and schools in Early Childhood Education, for this reason it is important to maintain the parents' association. This research aims to find out more about the management of Early Childhood Education student guardian associations. The research uses qualitative survey research methods. Researchers use primary and secondary data sources, primary data sources are school principals and secondary data sources are literature and documents to support research. This research was conducted at Cendekia Kids School (CKS) Madiun. The results of the analysis of the management of the Early Childhood Education student guardian association at CKS found that there were more strengths than weaknesses, the association's planning and programs produced a new program, namely Friday Blessings, there was a structure for the association's management, implementation was running effectively with the help of the association. There is no strict supervision because it is collaborative and the evaluation is relaxed with light discussions.
