

## ABSTRAK

Dwi Mar'atus Saputri. 2025. *Penerapan Model Kooperatif Tipe Stad Berbantuan Media Baamboozle untuk Meningkatkan Hasil Belajar Kognitif Siswa Kelas III Sekolah Dasar Pada Materi Bangun Datar*. Skripsi. Program Studi Pendidikan Guru Sekolah Dasar, FKIP, Universitas PGRI Madiun. Pembimbing (I) Dr. Hendra Erik Rudyanto, S.Pd., M.Pd (II) Dr. Fida Rahmantika Hadi, M.Pd.

Penelitian ini bertujuan untuk menggunakan peningkatan hasil kognitif siswa dengan menggunakan model kooperatif tipe *STAD* dengan berbantuan media *Baamboozle*. Jenis penelitian ini adalah Penelitian Tindakan Kelas (PTK). Teknik pengumpulan data yaitu dengan observasi, tes, dan dokumentasi. Prosedur penelitian meliputi perencanaan, pelaksanaan tindakan, observasi dan refleksi. Subyek penelitian ini terdapat 17 siswa, yang terdiri dari 6 siswa 8 siswa perempuan dan 9 siswa laki-laki. Hasil penelitian menunjukkan bahwa ada peningkatan hasil belajar kognitif dimana pada pra-siklus terdapat 6 siswa dengan presentase tuntas sebesar 35%, siklus I terdapat 10 siswa ketuntasan meningkat dengan presentase tuntas sebesar 59%, pada siklus II terdapat 15 siswa ketuntasan menunjukkan sudah mencapai rata-rata ketuntasan maksimum yang telah ditentukan dengan presentase 88%. Penerapan model kooperatif tipe *STAD* dapat meningkatkan hasil belajar kognitif siswa pada materi bangun datar siswa kelas III Sekolah Dasar.

Kata Kunci: Model Kooperatif tipe *STAD*, Media *Baamboozle*, Hasil Belajar Kognitif

## ABSTRACT

**Dwi Mar'atus Saputri**, 2025. *Application of the Stad Type Cooperative Model Assisted by Baamboozle Media to Improve Cognitive Learning Outcomes of Third Grade Elementary School Students on Plane Shapes*. Thesis. Elementary School Teacher Education Study Program, Faculty of Teacher Training and Education, UNIVERSITAS PGRI MADIUN. Advisor: Dr. Hendra Erik Rudyanto, S.Pd., M.Pd., Co-Advisor: Dr. Fida Rahmantika Hadi, M.Pd.

Key Terms : *STAD* Cooperative Model, *Baamboozle* Media, Cognitive Learning Outcomes

This study aims to improve students' cognitive outcomes using the STAD cooperative model with the aid of Baamboozle media. This type of research is Classroom Action Research (CAR). Data collection techniques include observation, testing, and documentation. The research procedure includes planning, action implementation, observation, and reflection. The subjects of this study were 17 students, consisting of 6 students: 8 female students and 9 male students. The results showed an increase in cognitive learning outcomes. In the pre-cycle, there were 6 students with a completion percentage of 35%. In the first cycle, there were 10 students who completed the completion, increasing with a completion percentage of 59%. In the second cycle, there were 15 students who completed the completion, indicating that they had reached the maximum average completion rate of 88%. The application of the STAD cooperative model can improve students' cognitive learning outcomes in the material on data structures for third-grade elementary school students.
